In Giordano Bruno: Works l'infinito universo e mondi (; On the Infinite Universe and Worlds), he developed his cosmological theory by systematically criticizing Aristotelian physics; he also formulated his Averroistic view of the relation between philosophy and religion, according to which religion is considered as a means to instruct and govern ignorant people, philosophy. On the Infinite Universe and Worlds To the Most Illustrious Secondly, the demonstration is begun of the infinity of the universe; [2] and the first argument is derived from the failure to limit the world by those whose fantasy would erect around it boundary walls. In , while living in the household of Michel de Castelnau, the French Ambassador to the court of Queen Elizabeth of England, Giordano Bruno completed three books of cosmological dialogues: The Ash Wednesday Supper; On Cause, Principle and Unity; and the current volume, On the Infinite, the Universe and the Worlds.
